DETAILED ACTION

1. Claims 5-7 are objected to because of the following informalities:

Re claim 5 as newly amended, "an" in line 8 should be --a--.

Appropriate correction is required.

2. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 2, "said extension arm" in the last line should apparently be --said extension arm portion--for consistency/clarity.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 3-5, and 7, as newly presented, are rejected under 35 U.S.C. 102(b) as being anticipated by Mocci.

Mocci teaches a handle and winch including a lug hole engaging extension arm 18 on a one piece bar stock crank 11+, an axis portion (i.e. the bar portion inside element 15), and a bend portion (i.e. including the bar portion to the right of the axis portion as viewed in figure 1 and extending to bend 17).

Re claim 1, see roller 15.

Re claim 7, combined bends 12,17 at either end of 11 define a 180 degree bend as broadly claimed.

Art Unit: 3612

5. Claim 6 is objected to as being dependent upon a rejected base claim and for the noted minor informality, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and including correction of the noted informality.

6. Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

7. Claims 8-10 are allowed.

8. Applicant's arguments with respect to the rejected claims have been considered but are moot in view of the new ground(s) of rejection.

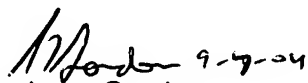

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
